

The SG-100 Series are Hayward's most economically priced stainless steel, self closing security swing gates.

These swing gates are ideal for use in retail stores, schools, cafeterias, amusement parks, airports, stairwells and other applications where inexpensive yet reliable security is needed.

The SG-100 swing gate can provide a needed access point for handicap persons or for hand trucks, carts or large deliveries.

The SG-100 may be ordered with a stop post (SG-100P) and striker plate (SG-100SP) or an electromagnetic lock to work with a card reader and other types of ID devices (SG-100E).

SG-100 Stainless Steel Swing Gate

- Reliable Gravity Closure Hinges
- Rugged Stainless Steel Design
- 180 Degree or 90 Degree Swing
- Customized Sizing to 40" Clear Opening

Clear passage opening is totally customizable. Any opening up to 40" can be manufactured at no extra charge!

HAYWARD
TURNSTILES, INC.

SG-100 Features:

- Designed for secure operation with aesthetics in mind
- Can be installed as stand-alone gates or used in conjunction with post and rail systems or turnstiles
- 2" Round Satin Finish Stainless Steel tube construction per ASTM standards
- Heavy duty, cam operated self closing hinges with replaceable nylon cams
- Posts are welded to a strong 1/4" thick 6" diameter floor mounting plate
- Decorative brushed Stainless Steel floor flanges to cover mounting plates and hardware
- Available with a stop post which can be used as a guide for patrons or for stopping gate from going in the opposite direction (when a striker plate is added) - *See photo to right*
- A Clear acrylic panel can be inserted into gate door opening. Wheelchair decal or custom graphics available - *See photo to right*
- Available with a powerful 600 lb electromagnetic lock powered by 12/24VDC allowing for the use of a card reader or other types of ID devices (90 degree single direction opening only)
- Clear passage opening is totally customizable. Any opening up to 40" can be accomplished at no extra charge – *See drawing to right*
- Post connectors can be added to either the hinge or stop posts to incorporate Hayward's AdaptaRail railing with the gate installation- *See photo to right*
