SecureTurn HT431 Standard Passage

Shown with optional Safety Sleeve Bulk Pack (15 sleeves).

Color choice of Safety Orange or Steel Gray.

Flagship Full Height Turnstile:

The SecureTurn HT431 standard passage is our most popular full height turnstile because it is extremely dependable, easy to install, and made right here in our USA-based manufacturing facility. The HT431 features tamper proof construction and floor to ceiling security. This full height turnstile easily integrates with virtually any access control hardware or software.

Materials and finishes available in:

- Hot Dip Galvanized Steel
- Powder Coat over Steel

Optional Padded Safety Sleeves:

Hayward Turnstiles Safety Sleeves are the perfect addition to your full height turnstile. Simply zip them onto your turnstile's arms to prevent injuries, enhance usability, and insulate turnstile arms from extreme temperatures that may be harmful to your turnstile's users.

Other single passage models in this series:

SecureTurn HT440 Wide Passage 40"

SecureTurn HT448 Extra Wide Passage 48"

Double passage models in this series:

SecureTurn HT431T tandem size for standard passage consists of (2) SecureTurn HT431 in a space saving layout.

HT431 Specifications

Applications:

Our SecureTurn HT431 standard passage fits perfect for when floor to ceiling security is required. It can be integrated with virtually all access control readers and software, making it the perfect high-security entrance device or perimeter security solution. HT431s are often integrated into fence lines and are often used outdoors to increase security and control access into and out of facilities. Our HT431 matches our HTG and HTG-M full height ADA gates in both size and appearance, making them the perfect pair for when handicap access is required.
