Swing Gate MR200 ADA Stainless

Premium Value • Streamlined design • One or two way swing • Custom top

SwingGate MR200 ADA
(36" ADA opening)

Applications:

Handicap gates provide authorized access for easy entry and/or exit. They restrict traffic, provide handicap accessibility, and are frequently used as an access point for hand trucks, carts, and deliveries. Popular applications also include retail stores, schools, libraries, cafeterias, and health club facilities where inexpensive reliable security is required. Our SwingGate cabinet style models are designed to be paired with our matching turnstiles and can be configured to offer different levels of functionality based upon your needs and budget.

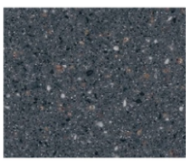
Cabinet style gates off er greater versatility and configuration options than conventional post style gates. Besides their matching ap-pearance, their solid wall construction gives them enhanced rigidity and also offers a variety of access control options.

The MR200 ADA is our premium cabinet style self-closing gate with a stainless finish, rounded corner streamlined design, choice of custom solid surface tops, and a double wall cabinet that is durable and built tough for long lasting reliable performance.

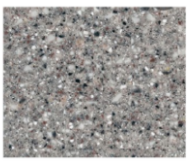
All MR200 ADA models include a self-closing heavy-duty hinge, a full size 36" clear ADA opening for handicap access, and either a one way 90 degree swing, or two-way 180 degree swing.

Available options include: an electric magnetic strike lock (integrates with access control systems), and push-button activation (momentary or timer).

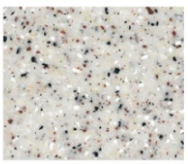
Available Solid Surface Lid Colors:



GRAPHITE GRANITE



GRAY GRANITE



White Granite

Moondust

Sea Oat Quartz

Desert Sand

NOTE: Custom colors available. Custom colors may incur additional fees and added lead time.
