Swing Gate SG600 Motorized Swing

Premium Construction • IP 54 Rated • One or two way swing • Motorized

SwingGate SG600

(36" ADA opening with custom dimensions available)

MODERN MOTORIZED PEDESTRIAN GATE:

A true complement to your interior design, the SG600 motorized pedestrian gate features a seamless and modern aesthetic. This ADA-compliant handicap gate provides bi-directional access with completely touchless operation.

Each SG600 swinging barrier is driven by a quick and energy-efficient motor to provide smooth, quiet, and extremely precise movement. On top of that, the SG600 features an electromagnetic toothed coupling to prevent barriers from being pushed open forcibly.

This modern motorized gate also integrates easily with virtually all access control systems via a momentary dry contact and can be configured to your choice of one directional access or bi-directional access. Coupled with a dedicated fire system input, the SG600 is a breeze to install and integrate with existing systems.

Being a handicap entry option, the SG600 is built with safety in mind. The SG600's drive system operates with low impact forces for maximum personnel safety.

About Hayward Turnstiles:

Hayward Turnstiles is a family owned manufacturer and distributor of turnstiles and security gates located in Connecticut. We draw from over 50 years of precision manufacturing innovation to craft industry leading turnstiles and gates.

Here at Hayward, customer service and a stress-free ordering environment are our primary goals. The members of our sales team act as your personal access control specialists. They take the time to learn about your specific project needs to ensure that you are matched with the products that best fit your job requirements.

To aid in your decision making process, we offer access control advice, design assistance, same-day quotations, and can even coordinate installation by putting you in contact with an installer from our national network of certified partner installers. We go the extra mile so you don't have to.

Need Installation?

Our Hayward Turnstiles access control specialists can coordinate installation with someone from our nationwide database of certified partner installers. Our partner installers are willing to provide you with an entire turn-key quote where they will handle purchasing, delivery, installation, and integration for you.

SwingGate SG600 Saloon Style

(Shown with glass edge illumination)
