

# HTG-A FULL HEIGHT ADA GATE

At Hayward, we understand that accessible entrances should be just as secure as they are convenient. The HTG-A ADA Access Gate provides a dependable, cost effective solution for controlled accessible entry, combining ADA compliant passage with reliable day to day access control.

When you choose the HTG-A, you're investing in a practical gate that integrates seamlessly alongside turnstiles and existing access control systems. Whether you're outfitting a new entrance, upgrading an existing facility, or creating an accessible companion lane, the HTG-A delivers the reliability, ease of installation, and long term value you need to keep people moving while maintaining a secure perimeter.

US made from 100% American Sourced materials, always.

**USA  
MADE**

*(Your Choice of Powder Coat or Galvanized)*

- ✔ Electric Strike, Door Closer, and Key Lock All Included Standard
- ✔ American Made from 100% US-Sourced Materials
